

COLOR THEORY

WHAT HAPPENS WHEN I MIX:

Red + Yellow =  _____

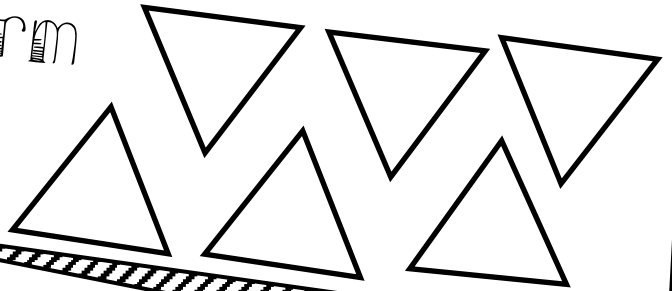

Blue + Yellow =  _____

Red + Blue =  _____

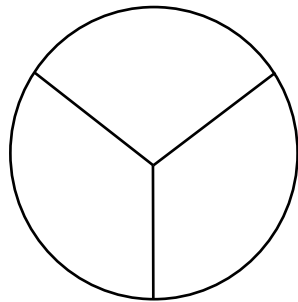

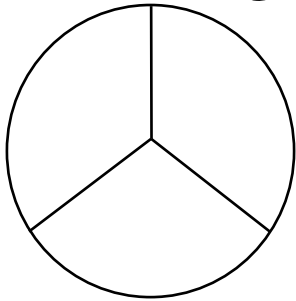

WARM

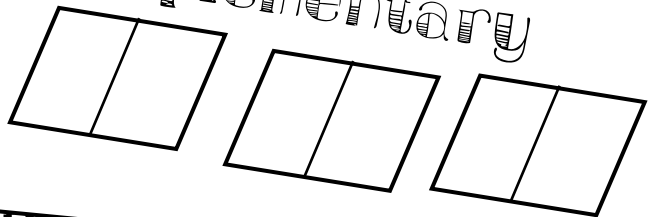

COOL

primary secondary

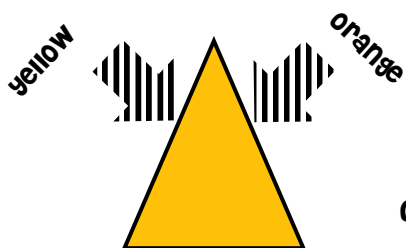

complementary

intermediate

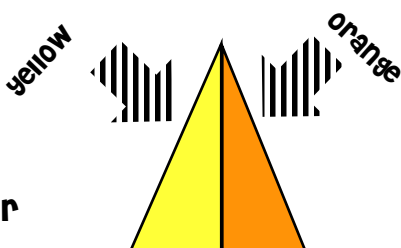

Intermediate colors are created when a primary and a secondary color are mixed. These color names are hyphenated. For example: yellow + orange = yellow-orange. You should always write the primary color name first.

EXAMPLE:

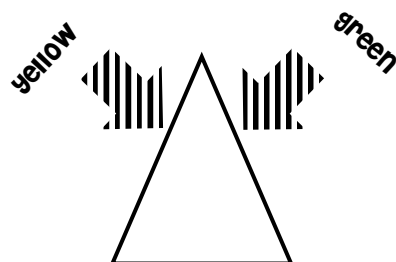

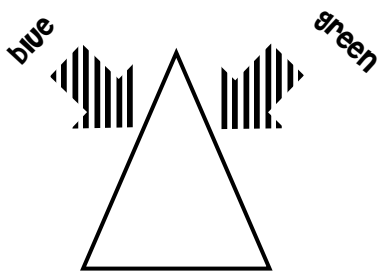

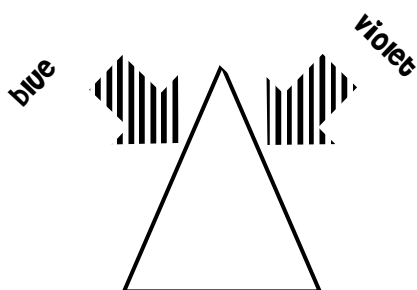

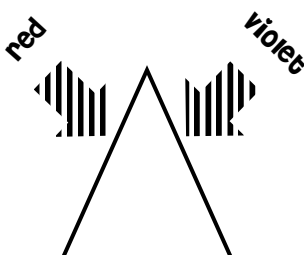

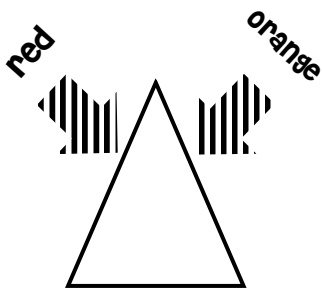

yellow-orange

or

yellow-orange

WORD BANK

blue yellow violet red green orange
